III. Maintenance and Upgrades

- A. Maintenance includes but is not limited to
 - 1. Launch time configuration to the hosting server
 - a) Back end server stuff to make sure your website loads quickly and goes to the right page
 - 2. Any additional server maintenance
 - a) If your website goes down for any reason it will be migrated to another server within 24 hours for minimal downtime
 - b) Server calibration for any traffic issues
 - 3. Any changes you would want to make to the website's prices, ordering form, or any other information on the website
 - a) There are a few ways to facilitate this, if you want to be hands on we can set it up so you can make the changes yourself. If you'd

rather leave that up to me, any changes to information will be made within an hour of you telling me

(1) Additional features and “big” changes will take longer time to be implemented and that will be noted before work has started

B. Additional features / pages to the website will be given ample time for testing and design

1. A schedule of the new feature build process will be provided
